At **Disney's Animal Kingdom** Theme Park, you can explore the wonder of amazing rainforests, African savannas and Asian jungles in an immersive, incomparable wildlife experience — all without leaving Orlando.

If you haven't visited recently, you'll likely want to visit the park's newest land first: **Pandora — The World of Avatar**. Based on the hit motion picture, this immersive area is one of Walt Disney World's most extraordinary accomplishments to date. In addition to the **Avatar Flight of Passage** and **Na'vi River Journey** attractions, it features out-of-this-world dining and shopping.

But to be sure, all six lands at **Disney's Animal Kingdom** Theme Park will transport you to hauntingly gorgeous realms you've only dreamed of seeing. In the first area, **Oasis**, you can enjoy a self-guided tour at **Oasis Exhibits**, which features fauna such as wallabies, giant anteaters, exotic boars and even barking deer.

Your next port of call is **Discovery Island**, the nexus of the park's other lands and home to the iconic **Tree of Life**®. It also features a self-guided tour at **Discovery Island Trails**®, as well as family-friendly entertainment at **It's Tough to Be a Bug**.

From there, it's a short distance to **Africa**, which has a self-guided tour at **Gorilla Falls Expedition Trails**. You can also witness exotic creatures in natural environments by day or night at one of Orlando's most unforgettable experiences, **Kilimanjaro Safaris**®.

Africa also hosts one of the park's most incredible shows, **Festival of the Lion King**. Celebrating its namesake animated classic, this Broadway-style spectacular will delight you with songs, puppetry, pageantry and beloved characters.

Keep moving and you'll come to **Asia**, where a legendary creature awaits you at **Expedition Everest — Legend of the Forbidden Mountain®**. Keep an eye out for the vengeful Yeti as you race to escape the cursed mountain!

Kali River Rapids® offers more white-knuckle thrills in Asia, where you can also set a slower pace with a self-guided tour at **Maharajah Jungle Trek®**. This area also features **UP! A Great Bird Adventure**, where you'll get the chance to see birds from all over the world with fan-favorite characters from Disney-Pixar's *Up*.

Once you've experienced Earth's present and explored another planet's future, it's time to travel to the past at **DinoLand U.S.A.** Younger guests will particularly enjoy **TriceraTop Spin** and **The Boneyard**, while those seeking more action won't want to miss **DINOSAUR** and **Primeval Whirl®**.
